PROGRESSUS

BUSINESS IMPROVEMENT PARTNERS

We acknowledge Aboriginal Peoples as the Traditional Owners of Australia.

We respect the significance of the Traditional Owners connection to Country, Language, Family and Community and we pay our respects to the multiple, adaptive, and diverse Aboriginal cultures that exist throughout Australia. Progressus Solutions respects all past, present, and future Elders.

ABOUT US

Progressus was born from the realisation that many businesses operate with an unresolved bias when it comes to identifying and managing risk, identifying and executing strategic plans and analysing and improving operational performance and organisational culture.

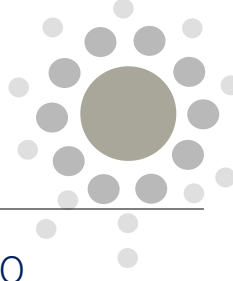

As a proud Bardi Jawi indigenous business Progressus partners with businesses to help them identify what is holding them back. We work collaboratively to teach and enable businesses to see into their business to; understand it, measure it, evaluate it, operate it and improve it!

With a diverse 40 year of collective executive and senior management experience Progressus is able to embed and immerse itself within your business to discover the unique intricacies of your identity and how you currently operate. This enables us to tailor a change management and business improvement strategy specific to your desired business and strategic outcomes.

Whether you are seeking someone to help you facilitate a business, team or cross-functional restructure, or someone to partner with you to help develop and implement a strategic plan for growth, culture change, profitability, cost reduction, improved safety or job satisfaction, Progressus partners with businesses to create exceptional outcomes.

Our Values

Our core values underpin everything we do

Capability	We possess the capability to deliver and we know how to. We strive to develop ourselves and our clients.
Accountability	We stay true to our values and carry ourselves with integrity. We value honest and open dialogue with our clients who uphold the same beliefs as ourselves
Responsibility	We have a moral and ethical duty to act in the best interest of each other, the communities and the environments from which we operate.
Transparency	We understand that the best work is done through mutual relationships built on trust and we endeavour to build on our trust through our collective successes
